**Appointments:**

**Justin Wisbey-** Justin is a Milford resident and father who has coached soccer in Milford for his two children for several years. He has concerns about the field space for youth soccer. The MCAA program has upwards of 700 children signed up to play in the spring/fall. The fields are now divided up very small making play difficult. Also there is potential for the fields to get worn out through too much use. The commission and Milford Recreation Department realize there is a need for more field space. Kaley Park will soon have two soccer fields that are in fair condition, though new and still fragile. The commission and recreation department realize that we can always improve our fields and the quality of grass through fundraising, utilizing the trusts in town, and the recreation commission revolving fund. Donations can always be made directly to the Kaley Park Fund to help with park and field improvements.

**Director's Report:**
